Imagine your spa  
in the jungle

## The Creator

Created by Anneke van Waesberghe, born Dutch....opens up a world of pastoral scenes and transports you into the heart of an authentic Tented Living Experience along the Sacred Sanctuary of the Ayung River in Bali.

The cultural essentials of Nomadism provide a basis for new architecture, feeding the minds of superstar architects into a world that's transforming.

During 20 years Anneke managed the East Meets West organization she founded in 1982, promoting the cultural similarities and differences between Japan and the West in architecture and design. She stated that in the future the differences between one culture and another might fade, and that designers could lose their cultural heritage. This cultural shift happened so fast that in a few thousand years archaeologists will have a hard time to determine the nationality of the designer. She was always on the road visiting Japan and other Asian countries, worked on projects with the United Nations in India, and was a member of a wide range of environmental organizations. One was the International Global Forum,

headed by Mikhail Gorbachev. She is now the owner and managing director of Esprite Nomade designing signature tents, interiors and life-style products. She was the owner and designer of the well known and extensively published Esprite Nomade villa's in Payogan, Bali, Voyage Villa in Nusa Lembongan, Interiors for Alila Hotels in Ubud, and the creator of The Royal High Tea, a Tented Picnic on the Edge of the World, and a lifestyle in motion. Her brand-name Esprite Nomade was launched at GoodEarth, a well-known lifestyle retail-store in Bombay, India and Kenas in Shanghai.

She arrived in Bali Late 1997 for a vacation; the start of a career as a product designer launching the Escape Nomade Travel collection. With her travel kit she took 5- star hotel luxury to remote locations.

The first tent was her showroom in Ubud, Bali as a display to show her travel collection. Once that vision became clear her home represented her passion and creation of the term for Design for the Environment, known as DfE.

Imagine your  
beach bar

## Design & Identity

- > Designed specifically to realize your aspirations and let you think out of the box.
- > Combination of wilderness with elegance, extreme with simplicity, comfort with adventure, freedom with safety.
- > A tented living space in nature.
- > A sustainable luxury lifestyle under a canvas roof.
- > Spirit of a nomadic lifestyle.
- > Living without walls.
- > Ethical and social responsibility.
- > Portable and multi-functional homes.
- > A tent or a combination of multiple sized tents can be your own house, roof terrace extension, restaurant, café, beach bar, retail store, office, spa or hotel
- > Live in remote areas.
- > Flexibility to go deep into nature when accompanied with independent energy and water supply systems.
- > Intelligent future friendly design due to its safe and healthy footprint.
- > Standard sizes: 25, 37.5, 50, 75, 112.5sm or custom made according to the needs and the purpose of their use.
- > Interior spaces can be easily reshaped and resized just by moving the panels.
- > Installation needs one day and can be done by yourself or EN team from Bali.
- > Built with a favorable building permit and building tax, which depend on each territory.
- > Made from the highest quality fabrics: waterproof, dirt repellent, mildew proof and earthquake proof.
- > In three different colors.
- > Easily maintained.

Imagine your luxury  
tented hotel in the desert

# Beyond Glamping

- > A recent, global trend in hospitality industry that offers outdoor enthusiasts an upgrade on rest and recreation.
- > Glamping has emerged internationally and came across the Atlantic to North America over the last decade.
- > Both independent properties and global hospitality brands have capitalized on an elevated demand for travelers of all ages who want to experience the positive aspects of glamping.
- > Glamping is growing. The trend has become large enough and popular enough to become its own category of travel. Glamping pivots on a high level of service that focuses on the complete comfort of the guests.

## A Luxurious Tented Living Without Walls

Escape Nomade focuses even beyond the amazing concept of glamping with the innovative luxurious tents where living is without walls. A mobile but luxurious living with low cost.

These heavenly made luxurious tents can be your home, your home's extension, roof terrace home, your tented resort, your beach bar, your restaurant, your shop, your office or simply anything you can imagine of.

Just let your mind free, pick a place, choose a size, name its function and your dream has been custom made.

## WARRANTY

Our tents are made for permanent living and can be lived in as long as in a house when it is well maintained, the same what you do when you own a house. The guarantee on fabrics (for Grade A fabric ) is 5 years. To fully enjoy the guarantee, we can prepare a maintenance contract which you can acquire. This will help you keep the tents in perfect condition. Once a year, after the first year we will come with a team to check the frames, the fabrics and clean the surfaces and interiors and re-train the staff how to take maintain the tents. Ask for the package.

### Included

- The tent includes a powder coated metal frame and imported high quality textile
- Wooden poles for the canopy's and bamboo covers for the supporting poles
- Video and set up instructions

### Excluded

- Platforms, decks, electrical and plumbing
- Doors and interiors are ordered separately
- Shipping. All prices are ex works, Ubud. Bali
- Installation

## INTERIORS

Interior decoration, accessories and amenities can be selected from our extensive pricelist of campaign style multi functional furniture and stackable accessories.

### Safety Features (Extra)

- Sliding doors; lock the bedroom with a regular lock and wooden floor lock for extra safety feeling. For personal tent living this is recommended, when for a hotel with security it is not necessary. The cost for anything wood and doors is not included in the price. Locker: The leather/rattan trunks have a lock and you can use them as a safety box for valuables such as passports, money and bankcards, cameras, laptops. These can be ordered separately
- We have a metal fireproof cabinet available and can be ordered separately
- The front and back doors can be made of Balinese wooden doors same as we have done.

### Standard Safety Features (Included)

- The canvas panels are attached to the floor by means of a wooden stick.
- The metal poles are covered with Bamboo and are lined with a panel holder with a zipper attached to the panel.

### Water and Septic

To be connected to public works or build own well and septic tank. Bathroom and toilet function the same as in a regular home. We do recommend composting toilets and grey water systems to conserve water and energy.

### Air Conditioning and Heating

Can be built in same as in a regular house, and buying and installing the units are the responsibility of the owner and his/her contractor

### Floors

- Cement with tiled floors have to be built and the responsibility of the owner and his/her contractor
- Wooden floors are available can be ordered from us
- Can be built in same way as in a regular house
- Before start building the deck we provide you with the drawings for the foundation of the metal pipes. These pipes we deliver and are for the supporting tent poles.

### Other qualities

- Earth quake resistant
- No Building Permit needed. Depending on your building codes, but usually there is a min. size and the amount of time it takes to set it up or take it down. Check with your local authorities.

### Understanding

Esprite Nomade designs and manufactures tents that can be used to live in. We are not home builders. The tents are made of the best quality materials, are knock down, and the wooden platforms and interiors can be bought at the same time or separately. The basic infra structure such as electricity, water and alternative flooring must be installed by the client.

### Service

- We can provide a set up team at a fixed rate of \$ 500. – per tent plus travel and expenses, special rates apply for resorts over 5 tents.
- On request we can design a maintenance contract for you where our team comes in.

### General Information

- There is a guarantee of 5 years on Grade A fabrics for the same roof fabric. The guarantee is from the Fabric manufacturer and passed on to the buyer.
- The tents will have a long lifetime if maintained properly, the same way one takes care of a house. Care instructions are available and should be followed up in order to profit from the guarantee.

### Ordering

- Extra panels, curtains, systems and accessories can be ordered separately and shipped to you from our factory in Bali.
- Separate panels and roof top can be ordered and shipped separately
- Ask us for the pricelist of the separate elements

### Delivery time

We can make 2 tent frames per month. Total order including

making the panels, roofs and interiors 2 months. Shipping time depends on the location. To Europe and US usually 6 weeks. In case of a special order for fabric color it takes 6 -8 weeks to receive the fabrics and has to be added to the delivery time. Once you order the tent we can give you the delivery date

### Replacements

To replace the panels, ask for the pricelist, you order and we ship. For installation just follow the instructions.

### Maintenance

The roofs are self cleaning and need to be dusted once a month in order to keep the same fresh look as day one. We include a set of brushes, dusters and brooms and cleaning instructions in the shipment. To set up the tents we include scaffolding, which later on you can use for maintenance. The side panels can be cleaned with 8 cups of water and one cup of sodium carbonate. Do not scrub severely as that takes out the waterproofness. To keep the fresh look, every 4-6 months clean the panels. Some panels might not need it. Apply with a soft brush and rinse thoroughly. Think of it as washing your windows you only need to do that every 4 – 6 months!

## WARNING

Do not place the tent under a tree unless you want to clean the leaves from the roofs on a daily basis. Do not select a light color for the roof.
